

LIGHT RIFLE

Each year the Orchard Mesa Gun club sponsors a Light Rifle Tournament for .22 caliber rimfire rifles, held in accordance with NRA Provisional Light rifle rules. Designed to encourage participation in competitive target shooting, the match is limited to .22 caliber rifles, weighing less than 8 ½ pounds and having a trigger pull not less than two pounds. Each match consists of a total of 60 rounds shot at 50 yards; 20 rounds in each of the prone, kneeling and off-hand positions.

HIGH POWER

The club conducts a series of High Power Matches approved by the NRA. The National Match Course; reduced to 200 yards. This is a four stage 50 shot match with sighters; standing slow fire, sitting rapid fire, prone rapid fire and prone slow fire. Competitors will be placed in one of five classes depending on their scores. Shooters can become eligible to purchase M1 Rifles and other products through the CMP by participating in these matches.

HUNTER BENCHREST

This is an informal non-sanctioned benchrest competition using bullseye targets. 50 shots total; 25 at 100 yards and 25 at 200 yards. Sighting targets are provided. The limits are no rifle over .30 caliber and maximum 6X scope.

AXIS VS ALLIES BATTLE RIFLE

This is an informal non-sanctioned match. 40 shots at 200 yards using only unmodified military rifles. Scoring is by hits in the 13 inch bullseye target. Shooters are allowed and encouraged to wear military uniforms and gear.

SCHUETZENFEST

This modern day match is a near reenactment of the great rifle matches of 100 years ago. Shot at 200 yards using strictly plain base cast bullets and single shot rifles, it requires patience, precision techniques and a steady off-hand stance.

JUNIOR SHOOTERS

OMGC sponsors a Junior shooting group that shoots from September to May. The group meets at the DOW Hunter Education range. From Memorial Day to Labor Day the 4-H shooters use the outdoor range every Wednesday evening. The Mesa County Fair shooting competition is held in July during fair week.

RANGE FACILITIES

Current range facilities offer a covered concrete firing line and concrete benches, with a maximum distance of 300 meters. A pistol pit is located at the north end of covered firing line. Development of additional facilities with various shooting disciplines will be completed as funds become available.
